The concept is simple, the rewards are priceless. Read a book (any book) to your newborn, infant, toddler, and/or preschooler. The goal is to have read 1,000 books (yes you can repeat books) before your precious one starts kindergarten. Does it sound hard? Not really if you think about it. If you read just 1 book a night, you will have read 365 books in a year. That is 730 books in two years and 1,095 books in three years. If you consider that most children start kindergarten at around 5 years of age, you have more time than you think. (So get started). The key is perseverance. To help, the Family Center will offer incentives. Come into Family Center and sign up today. You will receive a packet and bag to get you started.

Registration for the following programs is required and limited. In order to register for a Family Center program, your child's date of birth MUST be on file in the Family Center. A birth certificate or passport will be required as proof of age. Registration for all programs is age specific. Sign up in the Family Center or by telephone with your library card. **ALL PROGRAMS ARE AGE SPECIFIC. NO YOUNGER OR OLDER SIBLINGS UNLESS SPECIFIED.**

One Trophy - - - - - - One School

This is the fifteenth summer for the Plainview-Old Bethpage Summer Reading Trophy competition. The contest is always a huge success. Last year’s trophy winner was the Stratford Road Elementary School, which won a collection of books. The winning school will be awarded the trophy during a special presentation.

This year we predict it will be a real competition among the public schools in the district. The rules are the same. The winning school will be determined as follows:

- Children must be registered in our Summer Reading Program
- They must have read at least 3 books during the 7 weeks of the program
- The school with the highest percentage of children who meet the criteria will be awarded the Summer Reading Trophy
- In case of a tie, the winner will be decided by which school had the highest percentage of children reading 6 or more books

Our carnival is scheduled for Sunday, June 30, 2019 from 10:00 am to 1:00 pm. It will be held in the library staff parking lot. A rain date, if necessary, will be announced.

Happy Reading!
STEAM has become an integrated educational approach in many schools and libraries that involves science, technology, engineering, the arts, and mathematics. Maker spaces encourage children with STEAM tools to promote competencies and interests in these fields. Some of our STEAM tools include the Code and Go Mouse and Coding with Awbie that helps children learn the fundamentals of coding. But we also provide tools like Q-BA Maze and GeoBrix that promote problem solving skills. Come explore all of our Maker Space STEAM tools this summer!
